FAUSTRUCES

EQUESTRIAN INNOVATOR

Jean-Luc Fautras, after many patented designs, presents to you, the protection JUPÉCAP® to improve the safety and well-being of both the horse and rider in transit, in the stables or jumping.

WATERPROOF

- > The skirt and capes are made of a waterproof material, effectively protecting the legs and saddle from the rain and cold.
- > The mini-cape or the large cape (included in the zipped cover) are effective protection for the shoulders without hampering any movement.

COMFORTABLE

- > The material used for the skirt and capes is light, supple and strong.
- > It doesn't hamper movement.
- > When the weather is unpredictable, just position the JUPECAP® on the withers (compact when closed).
- > If it starts to rain, you will be ready to protect yourself without dismounting.

PRACTICAL

- > The skirt covers and protects the rider's legs and the saddle.
- > It stays in place whilst riding at all paces and when jumping.
- > The mini-cape or large cape are kept inside the integrated cover of the skirt.
- > The JUPECAP® is positioned in front of the saddle and is held in place by two elastics on either side of the withers that are connected to the saddle girth.
- > The tautness of the elastic keeps the JUPECAP® in place without disturbing either the horse or rider.
- > Safety is assured by the press studs which unfasten in case of a fall.
- > The skirt can be put on, around the waist, without dismounting.

CHARACTERISTICS

- > Material: waterproof fabric (1200 D polyester) light, flexible and strong.
- > Colour: black
- > Cleaning: machine wash cold
- > Size: one size
- > Weight: skirt + large cape: 1.9 kg
skirt + mini cape: 1.3 kg
- > Adapts to a large number of equestrian disciplines.
- > Adjustable elastic waistband for the skirt.
- > Press studs for the capes and elastic straps.
